E 	Rear doors, centered on flat panel below the beltline	20" × 10"	Clear vinyl, white ink or cut white vinyl lettering	2

INSTALLATION NOTES

- A and B must clear the Ford oval, the tailgate handle recess and the raised MAVERICK letters.** Vinyl will not lie flat over any of them. Center each piece in the flat panel to its side of the oval.
- C sits in the band below the MAVERICK letters.** That band measures roughly 4.2" tall off a photo — please verify on the vehicle before cutting and tell us if the bar needs to come down to 3".
- D and E are centered on each door's flat area,** clear of the handle scoop and the lower body crease. All four doors use the same 20 × 10" footprint — **set every one at the same height off the rocker** so the four read as a set.
- All seven pieces are white artwork only** — no plates, no backgrounds. They must read as lettering applied directly to the paint. Only the logo mark prints in color.
- Artwork is supplied at exact size. **Please print at 100% — do not scale to fit.**
- Outdoor-rated vinyl with UV laminate throughout. Cast film preferred over calendered.
